Enabling City-Region Development: Strategic Frameworks for Regional Growth, Corridor Integration and Sustainable Urbanization

18 - 19 December, 2025

Organized for

**Urban Development & Housing
(UDH) Department of
Rajasthan**

Organized by

AMRUT Centre of Urban Planning for
Capacity Building
Malaviya National Institute of Technology
Jaipur, Rajasthan – 302017, India

About Workshop

The AMRUT Funded Centre of Urban Planning for Capacity Building, MNIT Jaipur is conducting a Two-Day workshop on the topic of **“Enabling City-Region Development: Strategic Frameworks for Regional Growth, Corridor Integration and Sustainable Urban Urbanization”** for State Government Officials, Urban Planners, Development Authority Representatives, and Academics on 18th Dec and 19th December 2025, sponsored by the UDH Department.

This workshop is crucial for addressing the planning and governance challenges arising from high-growth corridors like the Delhi-Mumbai Expressway (DME), Dedicated Freight Corridor (DFC), Jaipur-Ajmer, Jaipur-Kota, and Jaipur-Sikar, which are creating complex multi-district city-regions. Existing institutional structures (ULBs, UITs, DAs, Panchayats) and planning tools are often fragmented and insufficient to manage this regional scale of growth, leading to jurisdictional mismatches and infrastructural gaps.

Workshop Highlights

- To analyze regional development dynamics shaped by investment corridors and delineate city-regions and multi-district growth areas - based on functional economic, mobility, environmental, and peri-urban linkages.
- To identify institutional and governance gaps including regulatory, administrative, and multi-jurisdictional constraints that hinder coordinated, corridor-led regional development.
- To recommend integrated regional planning frameworks and investment-led phasing approaches supported by financing mechanisms and digital/technology systems that synchronize land use, infrastructure, environment, and regional development.
