## Aditya L1 Workshop

### REPORT

### INTRODUCTION

The Aditya-L1 Workshop was conducted on [9<sup>th</sup> November] at [MNIT Jaipur ]. The workshop aimed to disseminate knowledge about the Aditya-L1 mission, India's first dedicated solar observation mission launched by ISRO. This workshop served as a platform to discuss the mission's objectives, instruments, scientific goals, and its role in advancing heliophysics research.

### Objective of the workshop

1. Educate participants on the scientific goals of Aditya-L1.
2. Provide insights into the mission's instruments and payloads.
3. Explore the significance of space-based solar observation in understanding solar phenomena and their impact on Earth.
